Preview # 2

Greetings From The NGSPA Board of Trustees (BOT):

The purpose of this preview is to give all of you a quick look at how things are shaping up for the National Championships in 2019, to give you a heads up on changes that were made at the BOT meeting in June and to encourage all of you to let us know if you have ideas to make the Nationals better.

WHERE: Sportsman Association Field Trial Grounds near Grovespring, Missouri.

Grounds Improvements at Grovespring: During discussions about making the move from Booneville to Grovespring, the biggest issues revolved around the available infrastructure for a Championship Trial the size of the NGSPA National Championships. The Board of Directors governing operation of the grounds agreed to make significant improvements to the available parking, dog kennels and horse corrals and when the BOT met with them they showed us what they had planned. Included was a renovated and expanded parking area with electricity and water to 16 new sites, a new well to service the renovated area, new dog kennels and new welded pipe horse corrals. Contact with Don Arnold, the coordinator for the improvements, just prior to this writing revealed major progress has been made and he anticipates all work will be accomplished prior to our arrival at the end of March 2019. To date, the new well is in, ground work is almost finished, the horse corrals are nearly finished, trenching for the water and electricity is about 40% complete and is on hold pending a break in the weather, and the new dog kennels are on site ready to be installed as soon as concrete is poured. Thanks for your hard work Don!
